

Product Overview

What is Spralac?

Spralac is a quality, entry-level ancillary product range. It is designed to offer a cost effective solution for the highly competitive refinish market. The Spralac product portfolio consists of a concise range of primers, clear coats, a high opacity white topcoat and thinners.

Spralac is distributed globally and is available in over 68 countries. The Spralac brand originated in France and was acquired by Valspar in 2011. Since then Valspar has continued to expand the product portfolio and increase global distribution.

“A quality product does not always have to come at a premium price.”

Product Portfolio

Clear Coats

SP4496
MS Clear Coat 2:1

SP4699
MS Clear Coat 2:1

SP4796
